THE BANNER, ORANGEVILLE. MAY 11 1911, p3.

STORM DATE Monday May 1 1911, 6 o'clock.

BARN BLOWN DOWN.

About 6 o'clock monday night May 1st a well developed cyclone struck the barn of Miss Martha Hunter near Caledon Lake and completely wrecked it. The storm lasted only a few minutes and covered a very small area. The barn was a bank one, 60 x 40. It was completely destroyed, the timbers being twisted and broken so that they were only fit for kindling wood. Several hens were killed, but fortunately 3 cows that were stabled underneath escaped without injury. Miss Hunter had some insurance on the barn but nonetheless will lose considerable through the diaaster.

Three years ago this coming August, a barn which stood in the same place was directly in the path of a destructive windstorm and was completely wrecked. The barn that was demolished on May 1st replaced this building.

THE GLOBE, TUE MAY 2, 1911 p 11
STORM DATE: MON MAY 1, 1911

FIERCE GALE RAGING ON LAKE HURON

FIRST BOAT UP FROM MONTREAL —FOGS CAUSE DELAY—VESSEL MOVEMENTS.

Montreal, May 1.—The Canadian Lake Line steamship Corunna, sailing to-morrow evening, will be the first sailing of any of the lake lines from this port to the head of the great lakes.

Foggy at Kingston.

Kingston May 1.—Heavy fogs on lake and river are delaying boats. The steamer Fairmount cleared this morning for Fort William, but had to drop anchor off Macdonald Park, the weather was so thick. The tug Bronson, which cleared for Montreal with barges, is reported aground near Oak Point.

Raised the Benton.

Amherstburg, May 1.—(Special.)—The wooden steamer Benton, which was burned and sunk near the Range lights here, has been raised by the wrecking steamer Mills of the Trotter Wrecking Company. The hull will be towed to Port Huron to be rebuilt into a sand barge.

Timber for England.

Frankfort, Mich., May 1.—(Special.)—The schooner Crillon is in harbor here loading square timber for export. The timber will be taken down the lakes to Garden Island, where it will be made into rafts and floated down the St. Lawrence to Quebec. At Quebec it will be loaded for shipment to England.

A Fierce Gale.

Mackinaw City, May 1.—(Special.)—A fierce gale is sweeping the Straits of Mackinaw to-night and the wind carries with it a heavy snow. The storm began this morning and as darkness fell to-night the wind shifted to the north, with a freezing temperature.

Sheltered at Sarnia.

Sarnia, May 1.—(Special.)—A heavy northwest gale is blowing across Lake Huron to-night with sleet and rain. The following steamers are here for shelter:—Lumberman, barges Mary McGregor, Vanvleck, Foster, Coffenberry, barge Nepigon and consort, and others whose names cannot be learned, at anchor below.

THE LISTOWEL BANNER,THURSDAY JUNE 15TH.1911.

STORM DATE.BETWEEN 3 and 4P.M.,SUN.JUNE 11TH.1911.

SEVERE STORM,MUCH DAMAGE DONE TO CROPS.

A very severe windstorm,in fact almost a cyclone,accompanied by rain and hail,passed over this district between 3 and 4p.m.Sunday.Much damage was done to trees,crops and buildings.

In town large branches were torn from trees and in a number of cases windows were blown in with the force of the gale.The upper part of the CRYSTAL PALACE at the FAIRGROUNDS was blown off,only the bottom storey remaining.

On the TOWN LINE EAST the damage was very heavy.MR.P.DAVIDSON'S silo was blown over,MR.GIBSON'S straw shed was destroyed and part of the roof of his barn torn off,the purlin being hurled 20 rods.The barns of Messrs. HEARD,PARKE,HULL and others in that neighborhood were damaged to a greater or less extent.

On the 3RD.of WALLACE,MR.WILLIAM H.MATHEWS had his windmill blown over and destroyed,and the roof of the north side of his barn lifted off and set down on the ground a short distance away.MR.AMOS WEBER,on the next lot,also had the roof blown off his barn.

MR.MATHEW CHARMAN,2ND.of ELMA,had his silo blown over.The losses in ELMA were very heavy,full particulars,however,are not to hand.In some places the crops were beaten down by the rain and hail which accompanied the high wind.It is estimated that the storm had a velocity of about 60 or 70m.p.h., and was the worst blow witnessed in this neighborhood since the cyclone that passed a few miles from here 7 years ago,when a number of houses and barns were reduced to matchwood.

We understand that in MOLESWORTH district,hail did the greatest damage,the hailstorm being exceptionally heavy.Hail of a very large size fell,some of it being an inch in diameter,and it is said that a sleigh would have run easily in some places.The hail did considerable damage in many spots to the standing crops and small fruits,and also broke a number of windows in that neighborhood.

WALLACEVILLE.

The hot and hazey weather of last week was the cause of some very severe electric storms.Last Friday afternoon one passed over this vicinity accompanied by thunder.On Sunday afternoon this section witnessed the worst storm for many years,being in the nature of a cyclone,it swept over the county with terrific velocity,playing havoc with barn roofs in particular,also uprooting trees,and levelling fences.Among those whose barn roofs

were considerably damaged are Messrs.WILLIAM PARRY,B.MILLER,WILLIAM KING, JAMES MURRAY,HENRY ADAMS,JOHN CALDWELL,THOMAS WHITE and others.Most of them,if not all,carried insurance against the weather on their buildings.

ELMA NORTH.

The storm which passed over this vicinity last Sunday destroyed a number of orchard trees,also some windmills,and a couple of barns were badly wrecked.

CARTHAGE.

The very severe windstorm passed over here last Sunday afternoon blowing down fences,uprooting trees,also tearing the verandah off MR. ROBERT GAMBLE'S house;the chimney was also blown down.

MOLESWORTH.

On Sunday a very heavy electric storm,accompanied by terrific wind and hail,passed over this district,doing considerable damage to standing crops and small fruits,also shattering many window panes.The hail ranged in size from ½ to an 1 inch in diameter,and old timers say it was the worst storm of its kind in many years.

ADJALA TOWNSHIP, SIMCOE COUNTY.

THE FREE PRESS, LONDON, ONT. THURSDAY JUNE 15TH. 1911.

STORM DATE. P.M., SUN. JUNE 11TH. 1911.

ROOF OF CHURCH LIFTED OFF BY HEAVY GALE.

PASTOR, WHO WAS PREACHING, TELLS OF EXPERIENCES TO TORONTO SYNOD.

TORONTO, JUNE 14. One of the late arrivals at the Anglican synod, REV. J. BLODGETT, of ADJALA, SIMCOE COUNTY, brought word of the partial destruction of his church in a storm last Sunday afternoon.

"I was just finishing my sermon" said MR. BLODGETT, "when the sky darkened and the storm began to come up. There were quite a few children in the church and I addressed myself to them for a few minutes. I assured them that the storm would be over in a little while, and told them not to be alarmed. Scarcely had I spoken when a great gale of wind came and lifted the entire roof completely off the church. Then the rain came down on us. It soaked the congregation. It soaked the organ and the carpet and destroyed completely $500 worth of trimmings and decorations that had been put in only last fall. There was no panic in the church and no one was injured.
