THE GLOBE, TORONTO. TUE AUG 13, 1907. P5
STORM DATE: SAT AUG 10, 1907

BIG STORM IN THE WEST.

KENORA AND DISTRICT BOMBARDED BY HAIL.

Several Vessels Caught in the Storm, and Fears Are Entertained of Some Disasters—Steamship Wanderer Has a Rough Time.

(Special Despatch to The Globe.)

Winnipeg, Man., Aug. 11.—One of the fiercest storms in the history of Kenora broke over the district Saturday night. Telegraph poles were demolished, windows broken and trees uprooted. The entire electric light system was put out of business for several hours, and the latter half of the performance of the J. McAuliffe Opera Company in progress at the opera house here was given by the dim light of lamps and candles. An unprecedented hailstorm broke the station windows at both Molson and Rennie, and the headlights on the C. P. R. expresses No. 96 and No. 1 were smashed by hailstones, which were reported to be pieces of ice as large as eggs. Fortunately no serious casualties have been reported.

Lake of the Woods has a record for storms, and the owners of private launches and yachts are at all times liable to experiences that are thrilling and exciting. Fears are entertained for the Kenora, which left Saturday. A boat was whistling during the night. It may have been her. Fortunately innumerable islands afford shelter that the wisest will always run for on the first sign of danger, yet often some, unwary, are caught in situations that are too near to danger to be pleasant.

The afternoon before the storm broke was a perfect Queen's day, tempting owners of launches to lengthy runs on the lake. Among the launches caught in the storm was the Albani, which had a trying experience. The Albani left at 4 o'clock in the afternoon and arrived back again about 3 p.m. on Sunday. They expected to return to town on the evening previous, but just as the storm broke their engine went out of gear and they drifted at the mercy of the elements, until finally the waves carried them against an island. In their efforts to make a successful landing three of the crew fell into the water, but succeeded in making their way to land, and after gigantic efforts towed the Albani around into the island. They remained all night, and the following morning again started for their destination, which they reached after many difficulties.

The steamship Wanderer, a small steamer engaged in the fishing industry, had a rough time. The steamer was nearly swamped, but by casting their barge adrift the crew managed to weather the storm. The barge was a total loss, and the cargo, about 45 boxes of fish, was also lost. The Savage came in this morning with twelve hundred baskets of blueberries, after a very rough crossing, and after being thoroughly lost among the islands for six hours. The range lights at Bishop's Bay were overturned by the gale of yesterday, and the larger boats running to Rainy River were all compelled to lay up at this difficult crossing.

W. McDermott, one of the men who escaped from jail here last week, was recaptured at Dryden, and before Magistrate Moore received an additional sentence of eighteen months, making his total sentence now three years.

STORM DATE: SAT AUG 10, 1907

KILLED BY LIGHTNING.

VIOLENT STORM DOES DAMAGE AT FORT WILLIAM.

Catholic Church Spire and Warehouse Wrecked and Dwelling Partly Unroofed—Mat Fissala, a Finlander, Struck and Instantly Killed.

(Special Despatch to The Globe.)

Fort William, Aug. 11.—The culmination of two days' heavy rain came yesterday, when from 2 o'clock in the afternoon until 4 o'clock the next morning this district was swept by the worst storm of years. As a result of the terrible storm one man is dead, two are in a critical condition, the spire of the Catholic Church is torn to pieces, the large new warehouse of the John King Company is injured, and a dwelling house on Wiley avenue partly unroofed. The dead man is Mat Fissala, a Finlander. In company with two companions, he was on his way from the freight sheds about 6 o'clock on Saturday night, when a bolt of lightning killed him instantly. His two companions were thrown to the ground, and when found were still unconscious. One of them remained in this condition for several hours. At 12.30 on Saturday night the storm came on again in a worse fury than in the afternoon. Telephones and electric lights were put out of business at the same time, and the injury to the telephone system is very heavy.

Perth County Historical Board

Dear Mr & Mrs Elms,

Enclosed is the Tilbury? picture from the post card.

There is a pair of gloves here which I think you may have left behind. We have also set aside some reference since we became aware of "tornadoes". Apparently there are people in Logan + Elma Townships who remember the big storm you spoke of.

Yours sincerely,

Jim Anderson
