JAM, 18/06/1990

GLOBE AND MAIL, TORONTO, THURS. JULY 28 1949 594902.
STORM DATE: "LATE TODAY" WED. JULY 27.

THREE RIVERS, QUEBEC.

50 Bathers Escape During Cloudburst At Three Rivers

Three Rivers, Que., July 27 (CP)—Trees were uprooted and rooftops of several homes ripped off during a freak storm with gale winds reaching up to 75 miles an hour in Three Rivers and district late today.

There were no casualties, but damage was expected to run into thousands of dollars.

The sudden storm, accompanied by torrential cloudbursts which flooded the cellars of numerous homes and business establishments, affected Three Rivers, near-by Cap-de-la-Madeleine and several small parishes within a five-mile radius of the city.

A large structure, representing a ship with funnels and masts, was demolished at the Three Rivers exhibition ground, endangering the lives of 50 bathers in a public swimming pool. The structure fell into the pool.

A power black-out followed the storm, and crops in the area were reported ruined. There also was hail.

The Tallyho, a British submarine, dropped anchor about a mile from Cap-de-la-Madeleine as the storm broke, but port authorities here said it was not affected by the blow. Several small yachts broke from their moorings in the port.

A frame scaffolding built for repairs to the belfry of the Roman Catholic cathedral here was ripped from the church, falling in pieces to the ground back of the bishop's palace.

Late tonight workers still toiled to mend damages to light and telephone power lines.
