Troop Camp Is Wrecked By Wind and Lightning

Camp Shilo, Man., July 24 (CP).—Soldiers were working today to repair damage caused by an electric storm last night at this military camp 125 miles west of Winnipeg. Huts were wrecked, tents torn from their pegs and one tent set on fire by a bolt of lightning which struck a stack of rifles and bayonets. Hurricane-like winds picked up tents and deposited them hundreds of feet away. A 100-foot-long building was wrecked when a blast of wind entered its uncompleted doors and windows and ripped it apart. No one was injured during the storm, but one group of soldiers had just left their tent when lightning struck it and set it on fire. Their rifles, which had apparently attracted the bolt, were reduced to junk.
