THE GLOBE, TORONTO, WEDNESDAY AUGUST 15TH.1917.

FROM "THE FARM AND COUNTRY PAGE"

STORM DATE. WED. AUG. 1ST. 1917. (AND OTHER DATES)

A DISTRICT REPRESENTATIVE ON THE SITUATION. (A part of a discussion among other agricultural topics)

"We have had two very bad storms in ONTARIO COUNTY in the last few weeks" said MR. R. M. TIPPER, district representative of the Department of Agriculture, in making his contribution to the discussion opened by MR. LICK. "As a result several fields of oats have been laid flat. About GREENBANK trees were blown down and buildings unroofed. In most cases the grain was fairly well matured before the storms came, and grain crops in the country as a whole will be above average." etc. etc..

Windstorms, as stated by Mr. R. M. Tipper, have caused quite serious damage in Ontario county this year. The illustration above shows the damage wrought by the storm of August 1 to the barn on the farm of Mr. Peter Mangen, near Udney. The photograph was taken by Mr. M. A. Cooke, Coboconk.
