Phone conversation with Mr. Harold Drummond (519) 825-7569. by P. Elias. on Nov 12/80.

Mr Drummond said that there was only a little rain at the time of the storm, which struck about 3 p.m. Mr Drummond's daughter-in-law was in the house, near the barn, and was not aware of any damage to the barn until neighbours drove into the yard. She heard nothing. The barn was levelled and debris was carried northeast, and found on neighbouring farms up to a half mile away. A maple tree at the west end of the barn had its top taken off and carried 100 feet. A tree at the east end of the barn was stripped of its leaves.

Mr Drummond estimated the width of the damage swath as 100 feet.

HAROLD DRUMMOND. (519) 825:7569

More storm damage occurred in the area on Friday afternoon. In the top photo Harold Drummond's barn was flattened by the storm. Winds of nearly seventy miles per hour caused plenty of damage in Wheatley. Also numerous trees were downed and the hydro to some parts of town was our for hours. The bottom photo shows Ivan Coutter's home surrounded by trees which fell near or on his house and then fell to the ground.
