ROSSER, MAN

STORMS, MAN. and SASK. ALTA.

THE GLOBE, TORONTO, TUESDAY JUNE 18TH. 1929.

MON. JUNE 17TH. 1929. (STORM DATE).

WESTERN PROVINCES SWEPT BY STORM.

TORNADO FEARED, BUT LITTLE DAMAGE IS REPORTED. WIRES ARE BLOWN DOWN.

(Canadian Press Despatch)

WINNIPEG, JUNE 17. Coming from the southwest, a wind and rain storm swept over a wide section of MANITOBA early this evening, but did surprisingly little damage, considering the formidable appearance it presented as it approached in the form of an immense black cloud.

Electrical power poles were blown down in scattered portions of WINNIPEG, while in ROSSER district, a short distance to the west of Winnipeg, several small buildings were blown over, but that, according to reports, represents practically the full extent of the damage.

At ROSSER, several persons, fearing a tornado, took refuge in cellars until the storm swept by.

Many districts in SASKATCHEWAN and NORTHERN ALBERTA also had rain and electrical storms, particularly in the SASKATOON area, where wires were blown down by high winds, and other property damage reported.

SASKATOON was cut off from telegraphic communication with WINNIPEG for a considerable time and reports of the storm's extent were not obtainable at 11 o'clock WINNIPEG time.
