· Advisory for Northern Georgian Bay and Haliburton
s issued by the Toronto Weather Office at 11:30 a.m.
nday, September 21, 1970.

te to heavy thunderstorm activity which developed early
orning over the upper Michigan Peninsula has been
d eastward over Northern Georgian Bay. This activity
is expected to continue eastward with widespread thunderstorms occurring today through the northern Georgian Bay and Haliburton Regions of Ontario. There is a threat of a few of these storms reaching severe proportions this afternoon with winds reaching 60 miles per hour briefly in gusts. There is also a risk of hail should such storms develop.
