Two twisters wreak havoc on western Manitoba farms

by HANK DANISZEWSKI
Sun Staff Writer

Tornadoes caused extensive damage to two western Manitoba farms during a severe storm on Saturday night.

One twister ripped through a farm yard three miles south of Hamiota causing at least $10,000 damage, according to Dennis Decker who rents the property. Two bins were lifted and thrown about 100 m and a woodworking shop was flattened. Mr. Decker said there was little equipment in the shop but a car and camper parked inside were damaged. Six windows in the house were blown out but there were no injuries.

"It happened so fast. It only took about 15 seconds," said Mr. Decker.

Another funnel cloud touched down near Erickson the same night on the farm of Reg Wanzel. The roof of a barn was ripped off but there were no injuries.

The Brandon weather office reports that rainfall varied greatly in the region, ranging from a high of 14.6 mm in Brandon to 3 mm in Virden. Peak wind velocity in Brandon recorded at the airport was 78 km per hour. Some light hail was also reported in the south of the city.
