TWO PERISH IN DETROIT FROM STORM

GLOBE JUNE 3 1936. WED

68 - Mile - an - Hour Blast Causes Havoc at Border

COURT RAINED OUT

Windsor, June 2 (CP).—Roofs were blown off, telephone and telegraph poles knocked down, store and theatre signs dashed to the streets and scores of buildings were flooded late today when a furious electrical storm broke over this district, lasting about fifteen minutes. The wind reached a velocity of 68 miles an hour. The rainfall was heavier than most inhabitants ever had seen before.

Boats Upset in River.

Dozens of windows were broken. The storm overturned a number of boats in the Detroit River. Three men were reported rescued from drowning off Riverside. Early tonight there were no reports of any fatalities or injuries on this side of the river, but two persons were reported killed in Detroit.

A portion of the roof of the Windsor Sports Arena was lifted off, while roofs were blown from at least three houses. A tree struck by lightning fell across a parked motor car on a downtown residential street, but no one was injured.

Lightning struck the home of Alfred House, starting a fire which brought the city department to the scene. On the same street a bolt of lightning crashed through a window and burned out a motor.

Traffic at Standstill.

Telephone communication with surrounding municipalities was disrupted by the storm, but was back in operation tonight. Visibility was so bad during the downpour that motor traffic was at a standstill. Hailstones the size of marbles descended with the rain, and were responsible for many of the shattered windows.

Mr. Justice Nicol Jeffrey adjourned the sitting of Supreme Court, as sheets of rain drove in the open windows of the court room and flooded the place before the windows could be closed.

Debris Crushes Cars

Detroit, June 2 (AP).—Two persons were killed here today by a wind and electric storm which caused thousands of dollars in property damage in Detroit and near-by communities in Michigan and Ontario during the few minutes it raged.

The dead were: Mrs. Hazel Taylor, 31, who was struck by lightning near her home, and William Gettamela, 15, struck by a steel crane blown over by the high wind.

The storm uprooted trees, unroofed buildings, blew in windows, flooded streets, and disrupted power and telephone service. Many automobiles were damaged and several crushed by flying debris or falling walls.

The Weather Bureau said .35 inch of rain fell in nine minutes.

A tree fell on a street car at Joseph Campeau and Madison Avenues, a few blocks from the centre of the city. None of the passengers was injured.
