1883

A HURRICANE IN OTTAWA DISTRICT.

Ottawa, Aug. 23.—A destructive storm swept over this city and adjoining township last night. About 9 o'clock the lightning was so continuous over the northern sky that the street lamps were unnecessary, and many gathered on Parliament Hill to witness the unusual scene. Suddenly the wind changed and the storm swept over the city, wrecking telegraph poles, breaking glass and doing other damage. The rain poured down in torrents and great alarm was felt. The storm was very severe in the adjoining township of Nepean. All the buildings and fences attached to Matchmore Driving Park were blown to pieces, and falling

CANNINGTON.

DAMAGE BY ANOTHER STORM. — The storm of last week did considerable damage to the farmers in this vicinity. Mr. Jas. Osborne of this village had the top of his barn blown off; Mr. Shipman of Brock had a board fence demolished, and strange to say, the posts were taken out the earth. Other farmers report fences down.

FRI SEPT. 7 1883

STORM DATE
THUR AUG 30 1883
Parry Sound district.

—On Thursday last a terrific cyclone passed over the township of Perry, Parry Sound district. As viewed from Scotia it had the appearance of rolling smoke, as it approached, accompanied by heavy peals of thunder and fearful lightning and rain. Travelling from Scotia in a southerly direction it did very little damage round there, but as it advanced it gained in velocity until it reached what is called the Robert's settlement, 8th con., Perry. There the storm was something fearful, levelling the bush of everything but the underbrush. The following casualties are reported from the district: Mr. Robert's barn blown away and hay destroyed; Mr. Bacon's barn torn down and sheeting scattered and broken in splinters; Mr. J. Bradley had a steer's leg broken; John Walls' barn blown down and a valuable mare killed by falling timber; Chas. Marshall's house unroofed and his barn blown inside out and a cow killed. Thence it travelled to Cyprus, unroofing P. Denham's house, shifting his large barn and twisting it out of shape, and killed two sheep. It levelled the bush and scattered the fence, taking even the bottom logs, lifting them for rods.

horse, cow + 2 sheep killed.
