MEN IN LIFEBOATS BEFORE WOMEN

Ferry Wrecked in St. Lawrence River — All Passengers Are Saved

(Canadian Press Despatch.)

Montreal, July 24.—In a sudden violent gust of wind that broke over the River St. Lawrence tonight at 7.30, the steamer St. Louis, one of the ferry boats making the service between Caughnawaga and Lachine, was blown onto a rock, where she grounded. About 150 passengers were on board at the time and these were taken ashore in two lifeboats carried by the steamer.

According to one of the passengers, the men jumped into the lifeboats and left the women and children on board, the captain, it is alleged, saying he was powerless to prevent it. Later the boats returned and took off the rest of the passengers. The ship is not much damaged.

STORM KILLS TWO AT OTTAWA

Terrific Gale Blows Heavy Awning Down on Baseball Spectators

FALLS DOWN CLIFF

(Canadian Press Despatch.)

Ottawa, July 24.—Two lives were lost as a result of a wind and rain storm of hurricane proportions which swept over Ottawa and district this afternoon. It played havoc with windows and awnings in the city districts, created considerable damage to the properties of market gardeners on the outskirts, and blew down a heavy awning erected over a temporary grand stand at the Columbia Baseball Park in Hull. A number of people were injured.

The Dead.

The dead are: Wilfred Parizea, aged 12 years, of Rochon, Hull, who was killed when he was struck by a heavy iron bar used to support an awning over the baseball park in Hull, which was blown down; Napoleon Russen, aged 52 years, 27 Lorne avenue, Ottawa, who fell from the roof of a shed at the rear of his home down a 60-foot cliff while he was repairing damage caused by the storm.

Hundreds Trapped.

Considerable excitement was caused at the Columbia Park, where a large crowd was watching an Interprovincial Baseball League fixture, when an awning erected over a temporary grand stand was blown down by the force of the gale. Several hundred people were trapped under the spacious folds of the canvas and only the presence of mind of the ball players and special police on duty at the grounds prevented more serious consequences. Wilfred Parizea, aged 12 years, was struck on the head by an iron bar nearly 100 feet long and three-quarters of an inch in diameter, which was precipitated in the ranks of the spectators when the wind blew the awning from its confines. The little lad died as he was being rushed to hospital. Several people were slightly injured in the struggles which followed the collapse of the roofing, but all of these were able to go home after receiving first aid.
