THE DAILY GLOBE,TORONTO.MONDAY SEPTEMBER 6TH.1875.

STORM DATE.ABOUT 5P.M.,FRI.SEPT 3RD.1875.

WIND STORM. THREE HORSES KILLED.

SEVERN BRIDGE,SEPT.4TH. Yesterday,a heavy fall of rain,accompanied with violent wind,visited this township,unroofing the dwelling house, barn,and stables belonging to J.G.COOK,besides blowing down a large number of trees in its course.One tree fell on the stables of Messrs. SEMPLE & SHAWLY,sub-contractors on the NORTHERN EXTENSION RAILWAY,and killed three valuable horses.

THE DAILY GLOBE,TORONTO.SATURDAY SEPTEMBER 18TH.1875.

On the 3rd. of September,at about five o'clock in the afternoon, a terrible tornado swept through the NORTHERN RAILWAY track,now fast being completed from the SEVERN to GRAVENHURST.So terrible was the hurricane, with heavy rain,that it literally strewed the whole track with massive trees,doing a great deal of damage by smashing the shanties and stables, and killing three valuable horses,the property of Messrs.SAMPLE & SHANLY, who are the string contractors of this portion of the line.All the men employed very narrowly escaped with their lives,so sudden was this calamity.There was no time to clear out.Other contractors are at a loss, but none so great as SAMPLE & SHANLY.The gale caught the NIPISSING just as she was steaming out of the bay,causing considerable excitement,such as never before seen on this boat.No damage was done,however,save the smashing of a little delf.
