TORNADO PROJECT SUMMARY SHEET

F=0 ONT

1. DATE AND TIME JULY 13, 1975. LATE EVENING.

2. LOCATION OR PATH (attach map)
VCNTY ST THOMAS 0697502

3. PATH LENGTH ☐ NOT KNOWN ☐ <1mi; ☐ 1-4mi; ☐ 5-10mi; ☐ 11-50mi; ☐ LENGTH IF>50mi

4. PATH WIDTH ☐ 5. TORNADO PART OF SQUALL LINE? ☐ YES; ☐ NO; ☐ UNKNOWN:

6. ANY UNUSUAL COLORATION? ☐ YES; ☐ NO; ☐ UNKNOWN

7. ANY UNUSUAL SOUND? ☐ YES; ☐ NO; ☐ UNKNOWN

8. IF ANSWER TO 6 OR 7 YES, ELABORATE;

9. LIST ANY ASSOCIATED PHENOMENA (Such as hail, vivid lightning heavy rain, no rain, etc.)
2" diameter hail reported in Balmy Beach (near Owen Sound)

10. TOTAL DAMAGE ESTIMATE $ 11. TOTAL DEATHS NONE

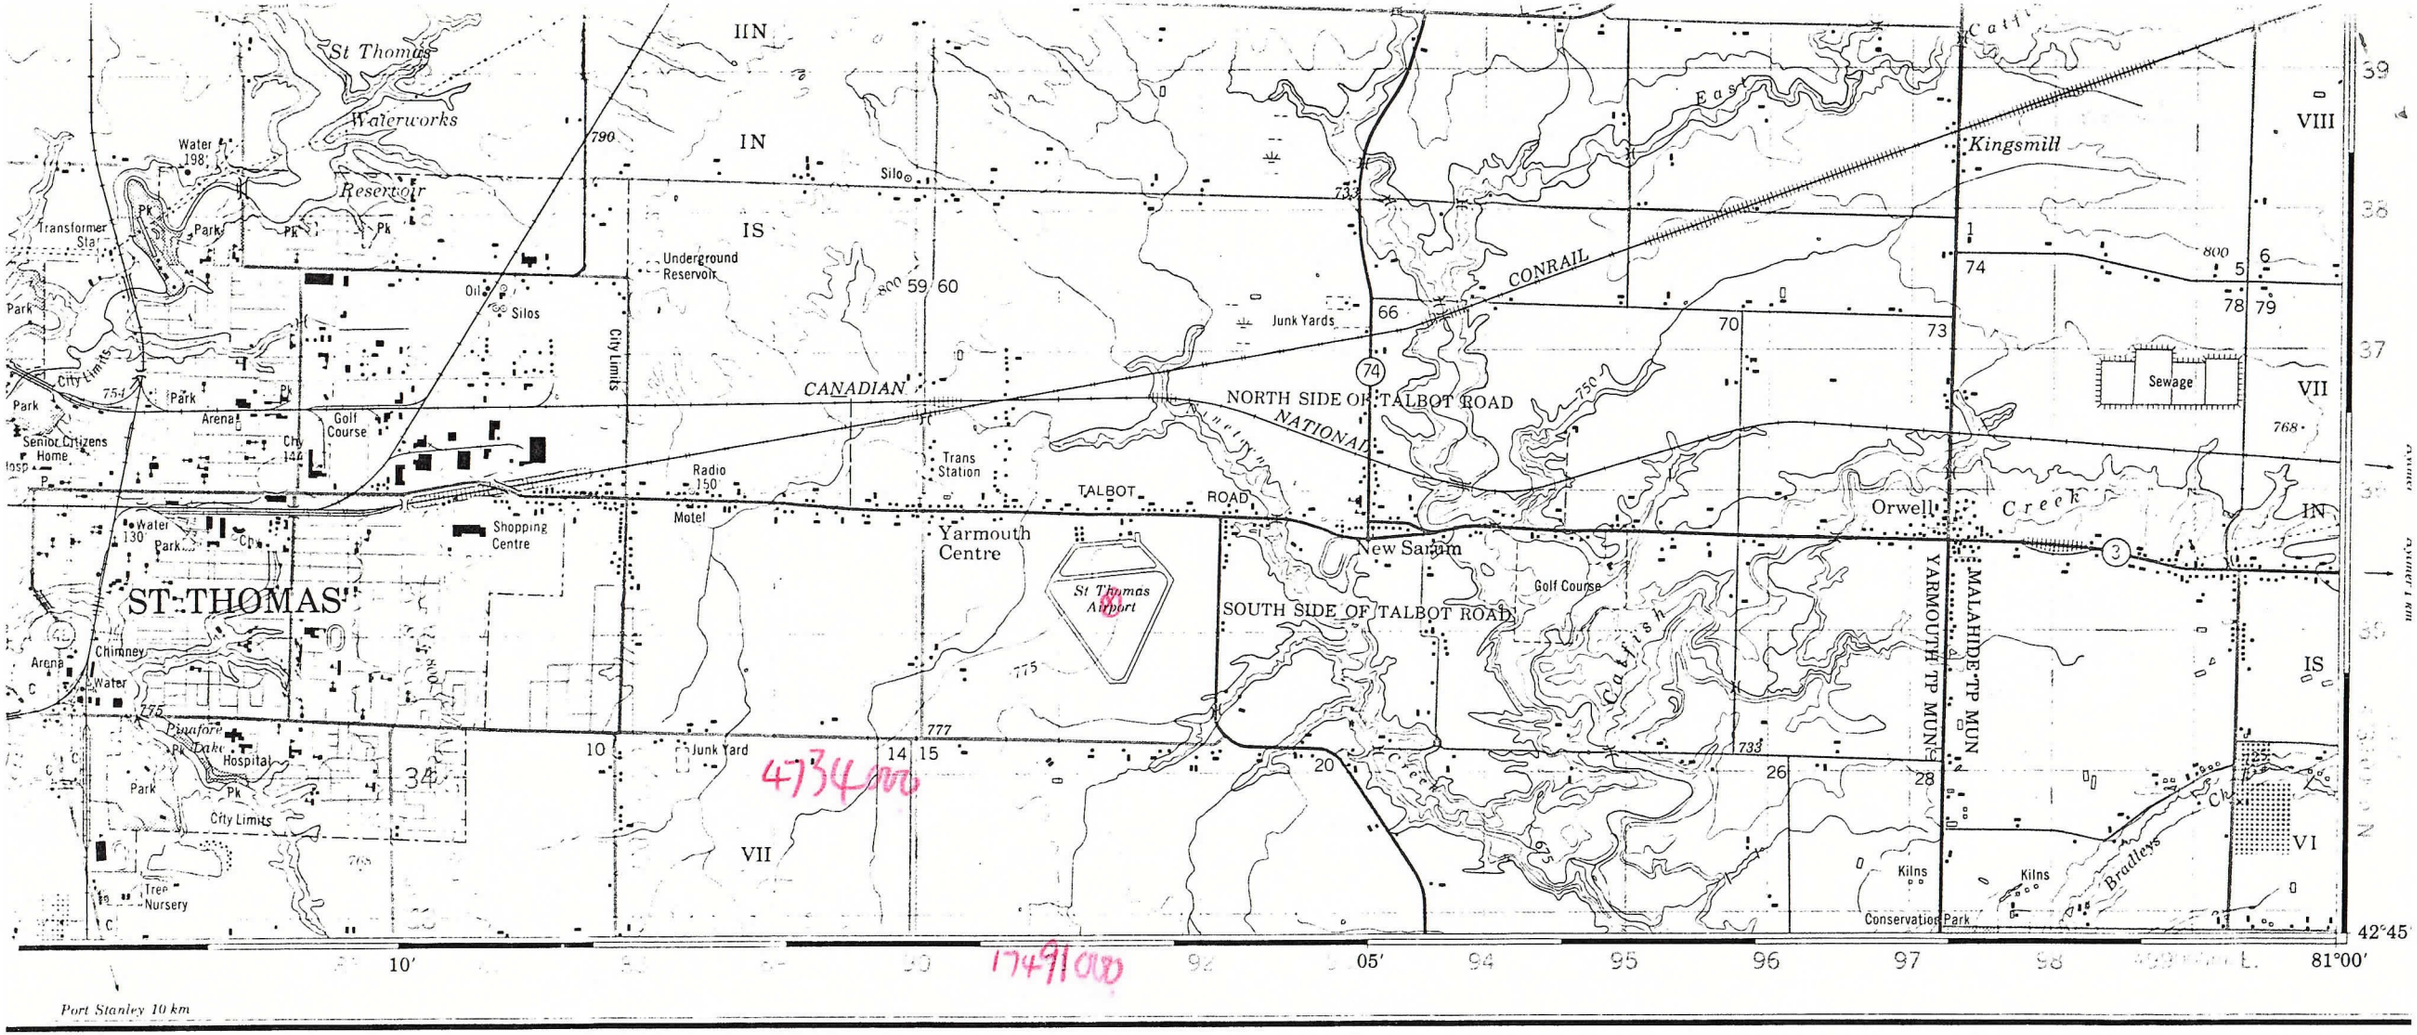

12. TOTAL INJURED 13. TOTAL HOMELESS

14. LIST ALL REFERENCES
WINDSOR STAR, JULY 15, 1975

15. SUMMARIZE REMARKS PERTAINING TO (a) FUNNEL; (b) INTERESTING OR CAPRICIOUS EVENTS.

(a) no remarks

(b) roof tops blown off, trees uprooted, hydro + telephone poles blown down. Two small airplanes at St Thomas Airport torn loose from their moorings and one was thrown 600 ft into a cornfield.

Information concerning location and precise elevation of bench marks can be obtained by writing to the Geodetic Survey, Surveys and Mapping Branch, Ottawa.

On peut obtenir des renseignements sur le lieu et l'altitude exacte des reperes de nivellement en écrivant aux Levés geodésiques, Direction des levés et de la cartographie, Ottawa.

CONVERSION SCALE FOR ELEVATIONS

ÉCHELLE DE CONVERSION DES ÉLÉVATIONS

Metres 30 20 10 0 50 100 150 200 250 300 Metres

Feet 100 50 0 100 200 300 400 500 600 700 800 900 1000 Pieds

CONTOUR INTERVAL 25 FEET
Elevations in Feet above Mean Sea Level
North American Datum 1927
Transverse Mercator Projection

ÉQUIDISTANCE DES COURBES 25 PIEDS
Élévations en pieds au-dessus du niveau moyen de la mer
Systeme de référence geodesique nord-américain, 1927
Projection transverse de Mercator

Établie par la DIRECTION DES LEVÉS ET DE LA CARTOGRAPH
MINISTÈRE DE L'ÉNERGIE, DES MINES ET DES RESSOURCE
Mise à jour à l'aide de photographies aériennes prises en 1976. Vérificat
des ouvrages en 1976. Renseignements à jour en 1976.

Twister damage still being assessed

By CANADIAN PRESS (Toronto)

A twister that ripped inland from Lake Erie on Sunday night scattered miscellaneous damage to crops and property that was still being assessed Monday.

The small tornado, however, caused no fatalities.

But roof-tops were blown off, trees uprooted and power and telephone lines blown down, largely in an area concentrated in Elgin County on Lake Erie. Two small airplanes at St. Thomas Airport were torn from their moorings and one was thrown 600 feet into a cornfield.

Harold Bucke, agricultural representative in Elgin County, said there is no question but that crops in the county will be reduced as the result of the storm, which was accompanied by heavy hail.

Around Sparta in this county, one observer said the tobacco crop looked "like spinach."

JUL 15 1975

Clifton Parker, who farms tobacco near Port Stanley in the same county, said between 20 and 70 per cent of his crop was damaged.

In London, a man who was in the bathroom when lightning struck, said it left a hole of about eight inches in diameter in the roof of his house.

The twister touched down near the farm of Gordon Coulthard of St. Paul's in Perth County, ripped the roof of his house and killed one of his dairy herd.

Gordon Thom, a neighbor, said the blow just about took his whole barn away.

In the city of Cambridge, the twister swished a 100-foot path through some parts of the community, uprooting trees and damaging hundreds of homes. Power was knocked out in about 100 homes in the city but restored Monday.

Barns and sheds were flattened at the hamlet of St. Paul's, five miles west of Stratford. Roy Manley was in satisfactory condition in hospital after the house trailer in which he was sleeping was blown into a ditch.
