SEVERAL WITNESSES SAW THE FUNNELS COME IN FROM THE DETROIT RIVER.
MRS LEIGHTON SYNNOTT, RIVER ROAD AT 18 HIGHWAY "I SAW THIS CONE SWIRLING IN THE SKY. IT WAS VERY LOW BUT NOT ACTUALLY DOWN TO THE GROUND. THE LONG THIN SPIRAL WAS MOVING IN THE DIRECTION OF WINDSOR"
ALEX HOFFMAN, PRESIDENT OF THE WINDSOR REAL ESTATE BOARD SAW THE TORNADO STRIKE LASALLE "HERE WAS THIS FUNNEL. IT WAS THE FIRST TIME IN MY LIFE I SAW ANYTHING LIKE IT. IT CAME FROM THE RIVER, AND WENT TOWARD MATCHETTE ROAD AND ESSEX GOLF CLUB.
THE AIR WAS FULL OF PAPER, ROOFING MATERIAL, DEBRIS
AS I WATCHED THE FUNNEL MOVE TOWARD THE GOLF CLUB A SECOND TORNADO CAME IN FROM THE RIVER. FOLLOWING THE SAME COURSE AS THE FIRST. THE TWO FUNNELS WENT UP INTO THE AIR AND DISSIPATED".
I'VE DONE SOME COMMERCIAL FLYING AND I'D SAY THAT DEBRIS WAS 500' UP IN THE AIR.
MISS GAYLE JONES SAW THE TORNADO FROM THE PUC OFFICES AT THE CORNER OF GLADSTONE AND FRONT STS IN LASALLE.
"IT WAS TRAVELING FROM THE S E TO NW. I DIDN'T HEAR ANY ROAR"

THREE LASALLE FISHERMEN WERE BLOWN 100 yds BY THE WIND AND DEPOSITED SAFELY ON SHORE. WE STARTED TO ROW FOR SHORE BUT THE WIND CAUGHT UP AND PRACTICALLY PICKED US UP AND PUSHED US TOWARDS SHORE. THE WIND PLOWED THE BOAT IN TO A BED OF REEDS

A SMALL ROWBOAT WAS PICKED UP FROM THE DETROIT RIVER SHORE AND CARRIED 2 BLOCKS INLAND. IT WAS DROPPED BY THE ROARING TORNADO ON THE FRONT ROAD NR VICTORIA ST. ONLY ONE CORNER OF THE BOAT WAS SMASHED. AS IT CRASHED AGAINST A DISPLAY SIGN ON THE HIGHWAY'S EDGE.

2 Twisters Slash Ontario Crops

WINDSOR, Ont. (CP) — Two pocket tornadoes—one seen by hundreds and the other almost unreported—caused hundreds of thousands dollars damage Wednesday but injured no one.

The first, at 4:10 p.m. EDT, at La Salle, eight miles southwest of here, uprooted trees, tossed a few roofs about and damaged greenhouses.

The second struck briefly but managed to damage one of the largest assemblies of greenhouses in Canada, causing more than $50,000 damage.

No positive damage estimate was immediately available as torrential rains and 65-mile-an-hour winds that accompanied the twister were believed to have caused heavy crop damage.

One House Shifted

The twister cut across La Salle at just about rooftop level, missing major destruction. One house in La Salle was reported by police to have been shifted slightly off base.

The second tornado occurred an hour after the first in Leamington, 34 miles southeast of here.

It caused damage estimated by Sam Shostack, owner of the five-acre Sunnyland Farms, at more than $50,000 to his property alone.

He said half of the roof of a large service building was blown off and smashed through nine of his 21 greenhouses. Others were damaged by the tornado and hail.

The other half of the building's roof landed in a cemetery adjoining his property.

The Leamington tornado also struck the farm of Luca Tolicella, ripping a roof off a barn and toppling trees. Then it tore up a $1,500 greenhouse belonging to Albert Mastronard and caused similar damage to other greenhouses in the area.

Mrs. Helen Bibbey, wife of provincial police Constable Murray Bibbey at Leamington, said she saw a cloud "that stood out from other clouds in the area as it passed over the town."

Shortly afterwards the brief tornado struck the outlying eastern farms near the town of 8,000.

The tornado in La Salle — a town of 2,800—capsized several boats, felled trees, and threw one boat the equivalent of three city blocks onto Highway 18. A resident said the boat was hurled over a house before smashing on the highway.
